

THENITH RANJAN P S

FULL STACK DEVELOPER

Chennai, Tamil Nadu | thenithranjan@gmail.com | +91 8220666322 | github.com/Thenithranjan | linkedin.com/in/thenith-ranjan-p-s | thenithranjan.web.app

ABOUT ME

To obtain a challenging career opportunity in an organization that values professional development and excellence, where I can utilize my skills and experience to contribute to the achievement of the company's objectives.

EDUCATION

Easwari Engineering College, Chennai, Tamil Nadu
Computer Science Engineering | 2024 - 2028 | 8.64 CGPA

EXPERIENCE / INTERSHIPS

- Research Intern — Engaged in company-sponsored use-case projects under the Research Cell at Easwari Engineering College.
- Green Internship — IM1B: recognized as Top Performer among the cohort.
- Java Full Stack Intern — Zidio Development: built modules using Java, Spring Boot, and React.js.
- AI for Sustainability — IM1B & IBM SkillsBuild: applied AI/ML to a sustainability use case.
- Web Development Intern — ELEVATE LABS: developed and deployed responsive web interfaces.

KEY PROJECTS

Retail Product Recommendation & Demand Forecasting System *React | FastAPI | MySQL | Python | Scikit-learn | Pandas | Machine Learning | MLOps*

- Developed an AI-driven textile retail platform combining personalized product recommendations, demand forecasting, and inventory management using customer, product, and sales data.
- Built ML pipelines for recommendation and demand prediction, incorporating product attributes, customer preferences, historical sales, and seasonal/festival trends to support data-driven retail decisions.
- Integrated FastAPI + Supabase with automated dataset synchronization and an MLOps pipeline supporting threshold-based retraining, model versioning, evaluation, approval/rejection, training history, and rollback.
- Project live Link | Code Link

Intelligent Medical Inventory Agent using RAG *React | FastAPI | FAISS | Sentence Transformers | Groq LLM | Railway | Vercel*

- Replaced manual document search with natural-language Q&A, letting users query multi-page medical PDFs in plain English instead of browsing manually.
- Converted documents into vector embeddings with Sentence Transformers, stored in a FAISS vector database, and retrieved relevant chunks via semantic similarity search for sub-second, context-grounded responses.
- Passed retrieved context to a Groq-hosted LLM to generate grounded, hallucination-reduced answers; built with React + FastAPI, deployed on Render and Vercel.
- Project live Link | Code Link

SupplyChain Guardians *React.js | Node.js / Express.js | MongoDB / MySQL | REST APIs | Vercel*

- Built a role-based supply chain platform serving 4 stakeholder types — Administrator, Manufacturer, Distributor, and Retailer — for real-time inventory and shipment tracking.
- Designed an analytics dashboard surfacing 6 live metrics (total products, available inventory, pending orders, shipment status, warehouse stats, inventory trends) to speed up operational decisions.
- Generated inventory summaries and operational reports to support faster, data-driven supply chain decisions.
- Project live Link | Code Link

UrbanMart – E-Commerce Web Application *HTML | CSS | JavaScript | React.js | Node.js*

- Built a full-stack e-commerce platform covering the complete purchase flow — product browsing, cart, and order management.
- Implemented backend REST APIs for authentication and product operations; developed a responsive UI with GitHub version control.
- Code Link

TECHNICAL SKILLS

Languages & Frameworks: Java, JDBC, Spring Boot, React.js, Node.js, HTML, CSS, JavaScript

Databases & Tools: MySQL, MongoDB, Git, GitHub, VS Code, Postman

OTHER SKILLS, PROFILES & LEADERSHIP

Skills: Problem Solving, Team Collaboration, Teamwork

Profiles: LinkedIn | LeetCode | HackerRank | CodeChef

Leadership: Coordinated symposium events | Coordinated Hackathon events | LeetCode Ambassador

Languages: Tamil, English, Telugu.
